COMPANY OVERVIEW

EnZone Tech (Pvt) Ltd is a Sri Lankan engineering solutions provider delivering comprehensive electrical engineering services. We specialize in precision engineering design, assembling all kind of LV switchboards, and end-to-end on-site execution for all scales of electrical installations.

We support our clients in navigating and overcoming operational challenges with dependable, high-precision engineering solutions.

OUR SERVICES...

A. Engineering Supply:

Design and assemble all kind of switchboards that adhere to local standards, site space limitations, and project needs.
We are able to supply the industry with the following products.

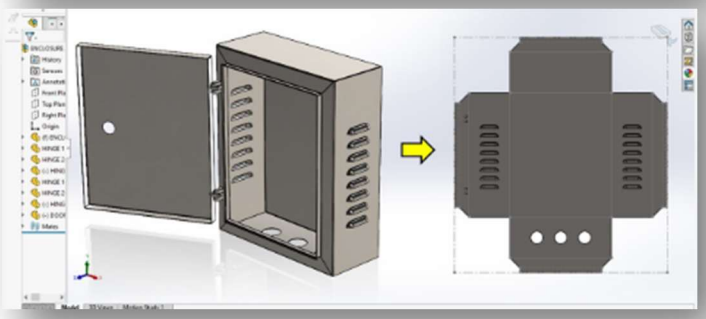
- Main Switchboards
- ATS Panels
- Meter Panels
- Motor Control Centres
- PLC & Smart Control Panels
- Apartment DBs
- 3Ph & 1 Ph Small Power Distribution DBs
- Feeder Pillars
- Power Factor Correction Cap. Banks

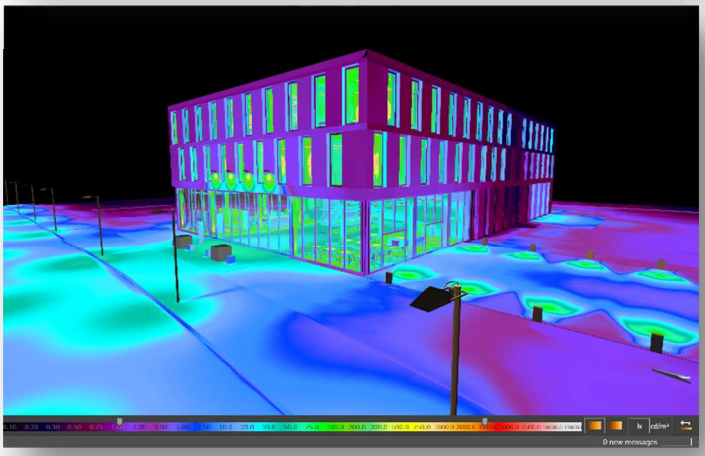
Apart from above products, we are capable to supply empty enclosures and accessories for cable management.

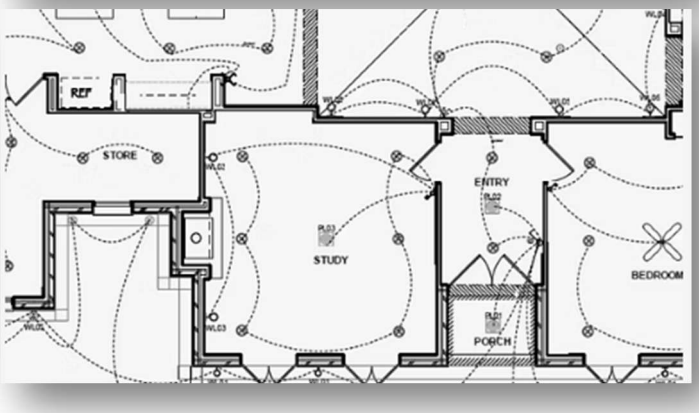
B. Engineering Support (Remote Operation):

End-to-end engineering support in following areas to ensure hassle free control of your electrical project.

- Electrical Project Estimation-Simpro, MS Excel
- Switchboard Design-Autocad, E-plan
- Create specific design drawings from typical design - Tracing
- Prepare As-built drawings from site data
- Switchboard 3D modelling-Solidworks
- Sheetmetal Development Drawings - DXF
- Electrical Services Plan (L & SP)
- DIALux Lighting Design & Calculations







C. Project Coordination (Remote Operation):

EnZone Tech provides end-to-end remote project management support by engaging with

- Project Execution Assistance
- Procurement Support
- Technical Documentation
- Project Cost Supervision
- Document Record Keeping

throughout the project lifecycle.

D. Field Services:

Our comprehensive field engineering services ensure the safe, efficient, and reliable operation of your low-voltage electrical infrastructure through every stage.

- Switchboard Installation & Termination
- LV Electrical System Commissioning
- Preventive & Predictive Maintenance
- Breakdown Maintenance
- On call assistance for urgent matters
- Commercial, Industrial & Domestic LV Installation

INDUSTRIES SERVED...

- Manufacturing
- Food & Beverage
- Packaging
- Energy & Utilities
- Hotel & Tourism
- Construction & Infrastructure
- Textile & Garment Production

OUR PARTNERS...

Building Lasting Value...

We combine technical capability, industry best practices, and responsive service to support your operational goals. Whatever the scale or complexity, we ensure high-integrity outcomes that safeguard your assets and operation.
